

Resolution P - Response - Recovery Plan

The Ontario Pork Safety Net Committee met with members of the Grassroots Campaign to present their recovery plan for the industry. There was good discussion and open exchange of ideas among the group. Ontario Pork outlined the current initiative that is underway with the Ontario Ministry of Food and Rural Affairs. Ken McEwan Professor of Production Economics & Agribusiness University of Guelph, Ridgeway College was also on hand to provide information and insight on topics discussed, such as the prospect of developing a risk management plan, ASRA, creating a level playing field, and political strategy. Many of the comments put forth by the Grassroots Campaign have been incorporated into Ontario Pork's long term plan.
