### Section 3. Action plan

<p>The action plan is your step-by-step process to getting your farm's biosecurity plan where you want it to be.</p> <p>List 2 actions of relative importance, according to the self-assessment you just performed, associating cost and practicality within your budget and time constraints.</p> <p>Assign a priority level (high, medium, low) according to your farm-specific needs, as well as the relative risk each action addresses.</p>	
Proposed action 1:	Date action completed :
	Priority ? High <input type="checkbox"/> Medium <input type="checkbox"/> Low <input type="checkbox"/>
Proposed action 2:	Date action completed :
	Priority ? High <input type="checkbox"/> Medium <input type="checkbox"/> Low <input type="checkbox"/>

### Section 4 . Veterinarian follow-up visit

Your veterinarian will visit this site and discuss with you this action plan.

<p><i>Strengthening Biosecurity is a priority among the solutions to minimize the risk of disease spread. Every measures taken at the farm have a preventive impact and enable producers to protect their assets.</i></p> <p><i>If you have any questions, or require further information regarding swine biosecurity resources, please contact the Ontario Pork Industry and Member Services team at <a href="mailto:memberservices@ontariopork.on.ca">memberservices@ontariopork.on.ca</a> or call 1-877-668-7675 ext. 1221.</i></p>
